Overview of Production of Recordings in 2003

Recorded Music Production Bottoms Out and Moves toward a Recovery Phase

In 2003 (January to December), the total production of recorded music (audio and music video recordings) by the member companies of the Recording Industry Association of Japan (RIAJ) totaled to 360.6 million units, up from 2002 (101% vs. previous year), while the value declined to 456.2 billion yen (95% vs. previous year).

By type of recorded music, the production of audio recordings totaled 328.4 million units (96% vs. previous year), with a value of 399.7 billion yen (90% vs. previous year). Production of music video recordings amounted to 32.2 million units (216% vs. previous year), and reached 56.5 billion yen in value (150% vs. previous year).

Consequently, the production of audio recordings declined for five consecutive years, and fell below 400.0 billion yen in

value for the first time in last 13 years. Conversely, music video recordings grew for the second year in a row, and music DVDs alone exceeded 50 billion yen in value in 2003.

The number of new audio recordings in 2003 amounted to 14,768 titles, up slightly from 14,079 titles in the previous year. The number of new music DVDs rose sharply to 1,577 titles, from 992 titles in 2002.

Demand for recorded music began to recover from the second half of 2003, with both production volume and value showing year-on-year positive growth in the fourth quarter. The production of recorded music is forecasted to enter a full-fledged recovery in 2004.

N.B.

1. The current year's results are a compilation of results from the 24 member companies of RIAJ.

Above figures also include OEM sales by RIAJ members for non-RIAJ members.

2. Figures are rounded, hence the possible difference between breakdown and total.

3. Others in Audio: Total number of SACDs, DVDs-Audio, DVDs-Music and MDs.

38. Domestic Penetration of Playback Equipment by Type

- VCR
- Stereo
- CD Player
- Receiver for Satellite Broadcast
- Mobile Phone
- Personal Computer
- Portable MD Player
- PS2
- DVD Player

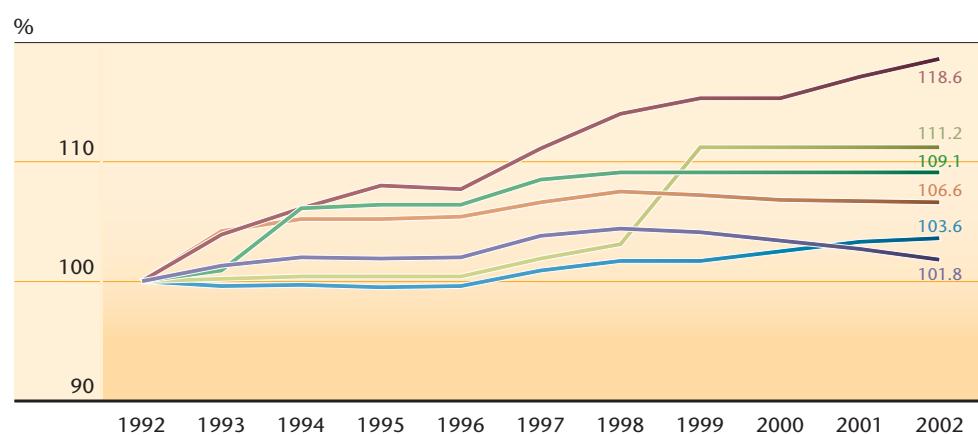

N.B. 1. Source: Penetration figures of "VCR," "Stereo," "CD Player," "Receiver for Satellite Broadcast" and "Personal Computer" are based on "Consumer Attitudes" from the Economic and Social Research Institute (surveyed every March, covering 5,040 households in 231 municipalities).

2. Ownership ratios of "Portable MD Player," "Mobile Phone," "DVD Player" and "PS2" are based on the "Annual Consumer Survey on Packaged Music Software, 2002," conducted by RIAJ (conducted with 800 randomly sampled male and female respondents, age 13 to 65 (figures for 1995/97) and from 12 to 55 (figures for 1998/2002). 1,000 samples were taken in 2002. 1,200 samples (age 12 to 69) were taken in 2003.

39. Price of Recordings Compared with Consumer Goods

- CD
- Cigarettes
- Movie Admission
- Weekly Magazine
- Newspaper
- Consumer Price Index

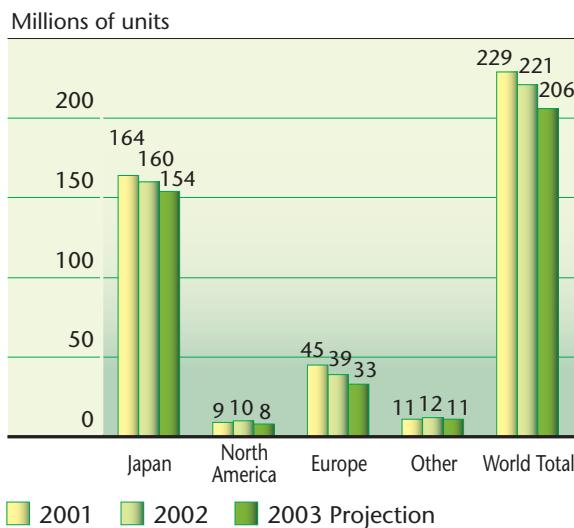

N.B. 1. Source: "Annual Report on the Consumer Index" published by the government's Statistics Bureau, Management & Coordination Agency

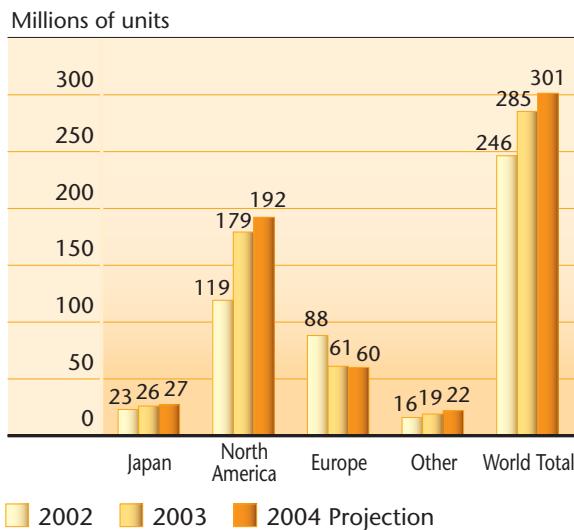

2. Price of CDs: price of standard Local Pop CD Album
